Thanks Carla. I talked with Greg C Friday and the street has not been dug up yet so the plan is to go over there Monday and use XRF on the soils that are dug up from the water main break. I will send the sampling crew first thing to the address to do the property.

Tom:  
I just spoke to the owner, and he says that he is willing to allow you to test. He said he gave his verbal agreement a week or two ago, but it doesn't seem that was communicated up the line.

Also note that the tenant receives Section 8.

Thanks,  
Carla

We do not have access for that property yet so it has not been sampled.

Greg:  
Is 4743 Melville occupied or vacant?  
Does this break only effect that one address?

I will notify the EPA that we need the data for that address asap.

Thanks,  
Carla

Subject: Water Service Line Break in Zone 2 - 4743 Melville

Tom:

I was informed by the Water Department Manager that there is a water service line break in Zone 2. The residential service address is 4743 Melville. Based on our discussion this week, it sounds like soil sample results may not be available for that location.

Before we dispatch department staff to the location on Monday to repair the leak, can we have a call on Monday morning to discuss available options provided by EPA regarding soil sampling and excavation services at this residential address?

Thanks,  
Greg
